Communicator Course

APC Series | Five nights residential

The APC series of courses is designed for those recently appointed to police communicator roles or to posts in the criminal justice arena. The course is continuously updated and those in post for some time will benefit from the experience.

Arrival on this course is late on the Sunday afternoon and after a 'Welcome' session there will be a presentation before dinner. For the rest of the week until Friday lunchtime there will be a range of presentations and practical sessions designed to be relevant to professionals dealing with media and communications issues in a law and order and criminal justice environment.

The course has the reputation of being a *'two week course crammed into one'* and in addition to the wealth of learning sessions, it is an invaluable opportunity to make new contacts with colleagues in similar roles. Each course is adjusted to reflect the feedback from the previous course and also examine the way the media was dealt with in a number of high profile cases.

With up to thirty learning sessions squeezed into the time with us, there is little leisure time to enjoy the excellent facilities at Belton Woods Hotel. Without exception, everyone returns home having made a new group of like-minded friends and exhausted from a full-on week of experiential learning!

The comments quoted in this flier have been extracted from the most recent course feedback.

Communicators Strategic Course

APS Series | Three nights residential

... a development course for police communicators and senior police officers

Although this course is ideal for developing police communicators with a few years experience in the specialism, we also believe police officers of inspector rank and above would benefit from the range of presentations and practical sessions. The combination of a number of criminal cases where the way the media was dealt with played a crucial part, a session on media law, the day-long session on developing a crisis strategy and a thread running through the course which culminates in a robust television interview, provides an invaluable learning experience in a safe environment.

Arrival is scheduled by 1100 on the first day and concludes with lunch on the fourth day.

Content will Include:

- ◆ Up to three case studies of relevant major incidents and the media strategies adopted to deal with them
- ◆ Advanced refresher in media law
- ◆ Critical incident exercise
- ◆ Developing a media strategy for a crisis
- ◆ A reputational crisis exercise
